

School Games.

The School Games accreditation is a Government led award scheme launched in 2012 to award schools for their commitment to the development of competition across their school and into the community. Participating in this process allows us a school to evaluate our PE and School Sports provision for the future.

We use the School Games Values to reward our children across nursery and school for their contribution in all aspects of their physical activities both in and out of school.

As a school we are extremely proud to announce we have been awarded GOLD (2018/19) for our continued commitment to PE and School Sport.
